

Emerald Isle Police Dept.

PEP Program (Police Educating the Public)

The “PEP” program is an extremely informative series of one hour classes presented on the third Tuesday of every month in the Town Hall meeting room at 10:00 am. The topics discussed in these classes cover a variety of subjects relevant to issues being faced by our community, as well as, those in other communities across the country. The goal of the program has always been to improve the understanding and awareness of the public by providing information and proven strategies on how to keep from becoming a victim of criminal activity. Entering our third year of this widely successful program, we are even more excited to continue to partner with our residents, business owners and guests to make Emerald Isle the absolute best place to live, work and play! Please join us and share your questions, thoughts and ideas!

For more information, please visit the Town Website at:
